About

Changes to U.S. government webpages changes don't happen in a vacuum. Information the public has access to can be influenced by various factors, such as politics or regulatory changes. What EDGI Web Monitoring does help expose of how these factors affect the content of environment-related government webpages.

Office of the Special Envoy for Climate Change

The Obama Administration is committed to combating climate change and meeting one of the greatest challenges of the 21st century. To address this global threat, the Office of the Special Envoy for Climate Change (SECC) is actively engaging responsible for developing, implementing, and overseeing U.S. international policy on climate change. SECC actively engages partners and allies around the world world, representing the United States at the ministerial level both bilaterally and through a wide variety of multilateral fora.
